Summary

Cybersecurity professional with experience in digital forensics, incident response, network engineering, and security operations. Skilled in DFIR (evidence imaging, metadata analysis) and SOC monitoring (SIEM, IDS), as well as vulnerability assessment and penetration testing. Strong foundation in networking (switching, VLANs, DHCP/NAT) and scripting. Completed B.Tech in Cyber Security and eager to contribute to incident response, threat hunting, and forensic investigations.

Work Experience

Zen Exim Pvt Ltd — Network Engineer (Switching) Dec 2024 – Present

- Designed and deployed switching solutions across access, distribution, and core layers.
- Configured VLANs, trunking, Layer 2/3 features, and implemented port security.
- Monitored performance, firmware upgrades, and resolved issues via Wireshark.

PHP Infosec — L1 Network Engineer Apr 2024 – Dec 2024

- Configured MikroTik routers (DHCP, static IPs, NAT) and firewall rules for clients.
- Implemented load balancing, port forwarding, and documented infrastructure changes.

Internships

Tech Defence Solutions — Cyber Security Intern Aug 2023 – Sep 2023

🌟 [Certificate](#)

- Completed TryHackMe, PortSwigger and HTB labs; simulated phishing and evidence tasks.

Sigma Training Institute — Cyber Security Intern Feb 2024 – Mar 2024

- Conducted penetration testing on VPN/wireless networks; performed OSINT and firewall configuration.

Prodigy Infotech — Cyber Security Intern Jul 2024 – Aug 2024

🌟 [Certificate](#)

- Developed Python tools (Caesar cipher, password checker, packet analyzer).

Cyber Forensics Solutions (CFSS) — Cyber Crime Investigator Intern Aug 2024 – Sep 2024

[Offer Letter](#)

- Assisted in forensic imaging, metadata extraction, and digital evidence reporting.

Secuerium Technologies — Cyber Security Intern Aug 2025 – Sep 2025

🌟 🙌 [LOR](#)

- Performed VAPT on internal web apps and executed OWASP-based vulnerability analysis.

Projects

Digital Evidence Investigation (Autopsy)	(Aug–Sep 2024)
Performed forensic image analysis, recovered deleted files, and reconstructed user activity.	
Network Packet Analyzer Tool	(Jul–Aug 2024)
Built Python/Scapy tool for live packet capture and protocol analysis.	
Network Traffic Analyzer for DDoS Detection	(Apr 2025)
Implemented monitoring using Wireshark, Snort, and Wazuh to detect DDoS/IP spoofing.	
Metasploitable 2 VAPT Lab	(Sep 2025)
Conducted VAPT identifying vsftpd backdoor, Samba RCE; documented remediation.	

Education

Silver Oak University	Apr 2025
B.Tech in Computer Science (Cyber Security)	CGPA: 8.36
Eklavya School of Science	May 2021
Higher Secondary (HSC), Gujarat Board	65%

Certifications

Google Cybersecurity Professional (Coursera)	
→ Foundations of Cybersecurity	 Certificate
→ Connect and Protect: Networks and Network Security	 Certificate
→ Manage Security Risks	 Certificate
Cisco Networking Academy – Networking Basics	 Certificate
Red Team Leaders – Certified Red Team Operation Manager (CRTOM)	 Certificate

Achievements

Participated in RootCipher 2025 – CTF Participation	 Certificate
Participated in Army Institue of Technology - Bypass CTF-2025	 Certificate
Participated in Indian Cyber Club Technology – Ethical Hacking Workshop	 Certificate

Skills

Core	SOC/Security	Networking/Tools	Soft Skills
- Wazuh SIEM - Snort IDS - Wireshark - Forensics	- Threat Detection - Incident Response - Log Analysis - Malware Analysis	- VAPT, Nmap, Metasploit - Firewalls, VPNs - Linux (Kali, Ubuntu) - Switching	- Documentation - Communication - Report Writing - Collaboration
